Re: Data Analyst Intern

Dear Hiring Manager,

I am applying for the Data Analyst Intern role at Example Corp. Your 2026 report on bike share growth shows the kind of questions I like to answer.

I study Information Systems and built a bike share analysis in SQL that found 5 of 20 stations ran empty on weekday mornings.

At my cafe job I cut waste 15% by tracking it daily. Thank you for your time.

Sincerely,

Alex Rivera
