SUMMARY

Commerce student who tracked waste and trained staff as a cafe shift lead and analysed bike share data in SQL, using Claude to draft queries that I edit and check myself. Seeking a Summer 2027 data analyst internship.

EDUCATION

Bachelor of Commerce, Information Systems Expected Apr 2029
Example University, Calgary, Canada
Relevant coursework: Intro to Databases, Statistics for Business
Upcoming: Python Programming

SKILLS

Tools: Excel (pivot tables), SQL, Python (learning), AI tools (Claude) to draft queries
Languages: English (native), Spanish (working)

EXPERIENCE

Barista and Shift Lead Jun 2024 to Aug 2025
Corner Cafe, Calgary, Canada

- Tracked daily waste in an Excel sheet and compared monthly totals, cutting waste 15% over 3 months.
- Trained 4 new staff on the till and the opening checklist.
- Led shifts serving 60 to 80 customers as the shift lead.

PROJECTS

Campus Bike Share Analysis github.com/example/bike-share-sample

- Analysed public trip data in SQL and Excel, finding that 5 of 20 stations ran empty on more than 30% of weekday mornings.
- Used Claude to draft the SQL, then chose the question, edited the queries and checked the totals by hand.
